<b>Maintenance and care instructions</b>	<p><b>The natural surface finish is designed to age over time - it should only be cleaned very lightly with mild liquid detergent or soap and water. Surface discolouration from handling is a characteristic of the unique finish and not a manufacturing fault.</b></p> <p>Do not use cream cleaners or citrus based cleaning products, as they are abrasive. Use of unsuitable cleaning agents may damage the surface. Any damage caused in this way will not be covered by warranty.</p>
